

low iron laminated glass manufacture price with CE/CCC/ISO

Life can be unpredictable. Everyone is concerned about the safety of homes and families. Unforeseen weather can cause havoc for homeowners. Today's auto and air traffic mean that the world is an increasingly noisy place. So taking practical steps to protect your interests is smart.

Laminated Glass is a kind of glass made up of two or more sheets of top quality glass bonded together with a PVB interlayer. In the event of breakage, the glass fragments remain bonded to the plastic interlayer. Laminated glass is a recognized safety glass and is widely used in building curtain wall, windows and doors in architecture, skylight, railings, shower enclosures, greenhouse, etc.

YUJING MIRROR / GLASS

Yujing fully tempered glass 4 - 5 times stronger than annealed glass of equal thickness. All work done on glass (beveling, cutting, beveling, ect) must be done before tempering. Tempered glass is one kind of high - strength glass with even compressive stress on the surface which is made by heating float glass to nearly softening point and then cooling it down rapidly by air.

QINGDAO YUJING FANYU TRADING CO., LTD

QINGDAO YUJING FANYU TRADING CO., LTD
