

Wholesale clear laminated glass for building construction with high quality

Clear laminated glass specification :

Clear laminated glass is one kind of safety glass made under high temperature by interlaying PVB membrane between glasses. It can be two sheets or more than two sheets.

Clear™ annealed glass is one kind of safety glass made under high temperature by interrupting any relationship between glass. It can be two panes or more than two panes. The firm and tough bondings between PVB film and the glass make laminated glass the safe glass with excellent performance. Vertically or sideling installed, it can resist the external impact and prevent penetration. Once broken, the broken pieces will still be stuck with the middle coatings so as to avoid human injury or property loss because of glass falling. Moreover, the whole glass still keeps its integrity and can continue to resist impact and provide a shelter from wind and rain.
